

Primary Care Clinics

The Nebraska Medicine primary care network continues to expand across the metropolitan area, including providers who practice family medicine, internal medicine and pediatrics. In addition, our Immediate Care Clinics offer convenient evening, weekend and holiday hours. No appointments are necessary, and patients will be billed at the same rate as a normal office visit. Immediate Care Video Visits are also available.

Specialty Care

Nebraska Medicine features a robust primary care network. From well visits and minor needs to managing chronic conditions, a primary care provider partners with you on your health plan. Using the Patient-Centered Medical Home comprehensive care model, your provider can connect you to renowned specialists and health resources.

Find a primary care physician at NebraskaMed.com/Doctors.

Nebraska Medicine offers immediate care with convenient night, weekend and holiday hours. See a Nebraska Medicine provider in person at an Immediate Care Clinic, or virtually through an Immediate Care Video Visit. No appointments are required, and these visits are billed at the same rate as a primary care appointment.

Find an Immediate Care Clinic near you or start your video visit at NebraskaMed.com/ICC.

The Nebraska Medicine network includes more than 50 specialties, including heart and vascular, orthopaedics, cancer, dermatology, obstetrics and gynecology and more. With advanced specialty care at Village Pointe Health Center and Bellevue Health Center, you never have to go far to receive world-class care.
